What do we want to see?

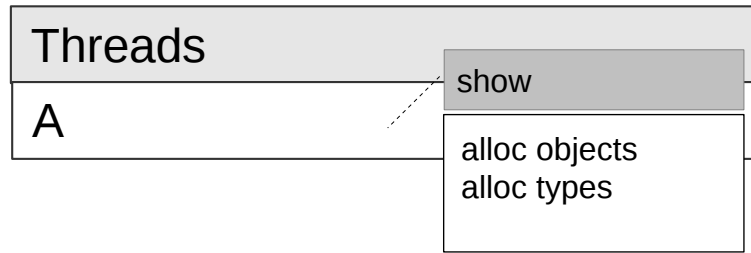

How do we want to see?

Object Type	A	B	C
Config 1	9.1	3.2	4.5
Config 2	2.4	8.8	9.7
Config 3	3.1	1.5	3.7

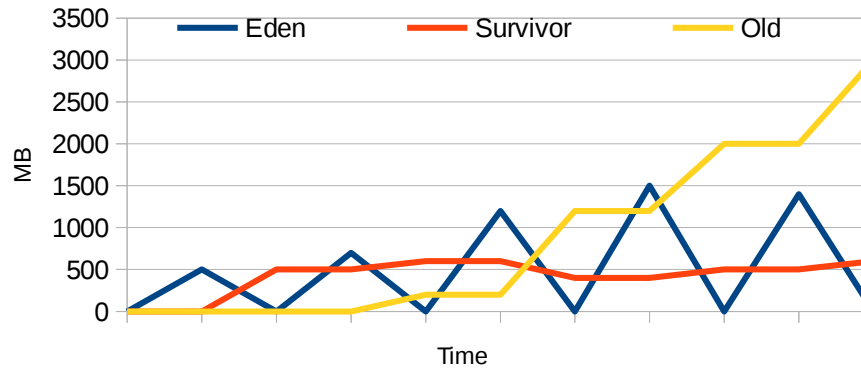

How do we want to filter?

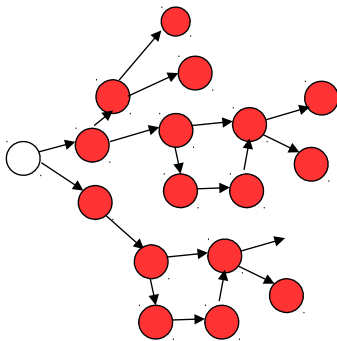

*show all objects
where type == A
and age 5*

UseCase 1: How to find a memory leak?

1) Growing (old) memory

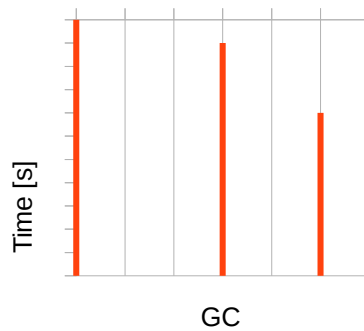

2) Growing GC size of single objects

UseCase 2: How to explain application slow-downs?

Long pause times

Demo
